## MOJITOS

### The History of the Mojito

The mojito was born on the island of Cuba and is one of the nation's oldest cocktails. The drink has a disputed history; some say the drink was developed in the 1500's when the famed explorer Sir Frances Drake landed in the city of Havana. He created an early version of the mojito called "El Draque" out of aguardiente, (a crude form of rum) sugar, lime and mint.

The mojito rose to prominence when renowned writer Ernest Hemingway became a fan of the beverage after visiting a local Cuban bar called "La Bodeguita del Medio" and also enjoyed the drink in Key West, Florida.

We invite you to step back in time to the island city known as "the Paris of the Caribbean" as you relax and enjoy the tantalizing delights of a bygone era.
